## **LSA Circular 5/96**

### **Area shown on LBP/SRP**

It has been suggested by one of the Authorised Land Surveyors that the registered area be shown side by side the surveyed area on LBP/SRP for the reference of land owners. The proposal was considered by the Land Boundary Survey Committee (LBSC) of the Survey and Mapping Office, Lands Department at its meeting held on 8.8.96. The LBSC did not support this proposal as it would be confusing to have two values of the lot area shown on the plans.

The above recommendation of the LBSC has been accepted by the Land Survey Authority. Authorised Land Surveyors are therefore advised to show only the surveyed area on LBP/SRP.
