45.93 hectares (ha) and 39.27 ha of land were disposed of respectively in 2014 and 2015, but during the same period, a total of 43.7 ha and 37.78 ha of land were disposed of respectively under land sale programme (auction and tender) and by way of private treaty grants. In what way were the remaining 2.23 ha and 1.49 ha of land disposed of?

Reply:

In 2014 and 2015, other than land disposed of by way of public land sale and private treaty grants, the respective remaining 2.23 hectares (ha) and 1.49 ha of land were disposed of by way of lease variations (i.e. lease modifications, land exchanges and lot extensions).
